Clinical Innovation

1x \$30,000

The DOM Internal Research Grants are exclusively available to faculty within the Department of Medicine. They are designed to enhance the academic portfolios of individual faculty members and to prepare them for external research applications in their respective fields. Funding is provided across four distinct streams, demonstrating DOM's dedication to supporting a wide range of research/scholarly endeavors.

Please ensure you select the appropriate category from the drop-down list below:

- Clinical Innovation
- Medical Education Research
- Quality Improvement & Patient Safety
- Research (Basic and Translational)

Applicants can submit one application to each the TIME-UHFK and the DOM competitions. However, each application must be unique.

Applicant's name

All items on the checklist must be checked before the application can be submitted.

Check all that apply:

- I am a junior investigator (assistant professor).
- I am a new department member (less than two years).
- I am a senior investigator with a new research initiative not yet funded.

Application Requirements: Please ensure you have read the requirements noted below. To submit your application, you must have checked all boxes.

- The Principal Investigator (PI) listed on this application holds a GFT faculty appointment in the Queen's University Department of Medicine. Collaborators may be outside of the DOM.
- Canadian Common CV (CIHR BioSketch format) for the PI and co-PI are included with this submission (CVs are not required for collaborators or other research personnel).
- By 11:59 pm on Friday, May 17th, 2024 (submission deadline), my application form, CVs, and supporting documents will be submitted via the Good Grants platform.

If my application is successful, I understand that:

- I will be asked to provide a lay language summary that will be used for publicity.

I will be responsible for submitting a brief annual report of research progress and outcomes.

A TRAQ DSS must be completed for this project before funding can be released.

Approvals must be in place prior to funding being released including from (as applicable): Human Ethics; Animal Care; Health & Safety (Biohazardous Materials).

Principal Investigator (PI)

First Name:

Last Name:

Title at Queen's University:

Phone number:

Extension: (optional)

Each of the following questions has a character limit (spaces included).

References are not included in this limit and should be uploaded separately.

No appendices or additional pages are permitted.

Project Title:

640 characters

One Page Summary: The following headings should be outlined in your response:

3500 characters

- 1) Introduction & Rationale
- 2) Summary of Preliminary Data
- 3) Research Hypothesis & Specific Aims (1-4 specific aims)
- 4) Impact & Relevance

Please explain, in detail, your methods and research plan (including experimental design, statistical analysis, knowledge translation plan, consideration of sex and/or gender):

7000
characters

What is the potential impact of this study?

1000 characters

Are you planning on applying for external funding based on data derived from this project?

3500 characters

Yes

No

Upload Figures (*maximum 3 figures*). Figures **must** include captions and be cited in the text of proposal: (optional)

Documents must be formatted as a PDF.

Upload a 1-page reference list that supports your proposal:

Documents must be formatted as a PDF.

Please complete and upload the budget template below.

Funding Amount Requested:

- Clinical Innovation (\$30,000)
- Medical Education Research (\$20,000)
- Quality Improvement & Patient Safety (\$20,000)
- Research (Basic and Translational) (\$30,000)

Budget: Please click [here](#) to download and complete the budget template.

Once the budget template has been completed, upload here:

Documents must be formatted as an Excel (xlsx) file or PDF.
