

# Palliative Medicine Rotation

## Block 2 24-25

### Resident Presentation

Each rotating resident will be responsible for a short (10 minute maximum) presentation using one of the pre-selected palliative care topics. You can use provided articles (to be sent to you by email) as a base for your talk, or choose your own. It does NOT have to be a review of a particular article like journal club. The format is quite flexible (It should not include a Powerpoint presentation).

Email Ruili ([Ruili.fang@kingstonhsc.ca](mailto:Ruili.fang@kingstonhsc.ca)) which topic you have picked and it will be first-come-first-served so whoever calls dibs on a topic first will get it. **When we have more than 6 residents**, you are welcome to choose other topics (relevant to palliative care), or when two of you want to share a topic, you will need to work together to divide the topic into something you can each present separately (e.g. pain can be divided into nociceptive pain and neuropathic pain).

1. Pain
2. Nausea/Vomiting
3. Dyspnea
4. Constipation
5. GOC/ACP
6. Delirium

The schedule for Block 2 as below:

Time/Date/Activity	Resident/Trainee	Attending/Staff	Location
8:00-9:00 am <b>Tue Jul 30</b> <b>Resident Orientation</b>	All Trainees	Dr. Iqbal	36 Barrie Street
